SAP CAP Email Plugin

Stijn Mertens
Community Lead SAP
Development

✕ Simplifying Email Integration using SAP CAP plugins

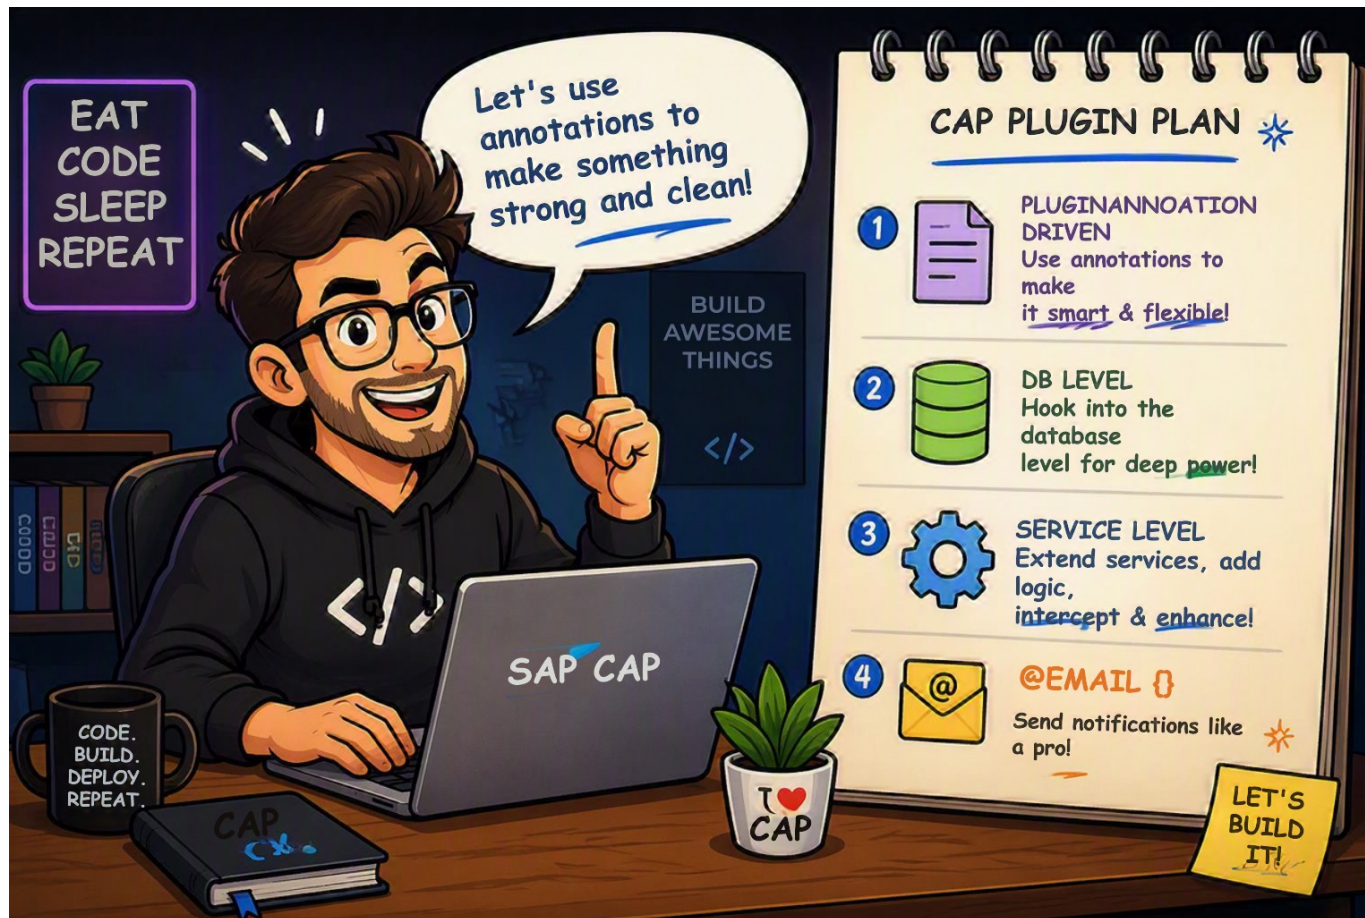

Agenda

- > 📖 Backstory
- > 🖋️ Concept
- > 🎮 Demo

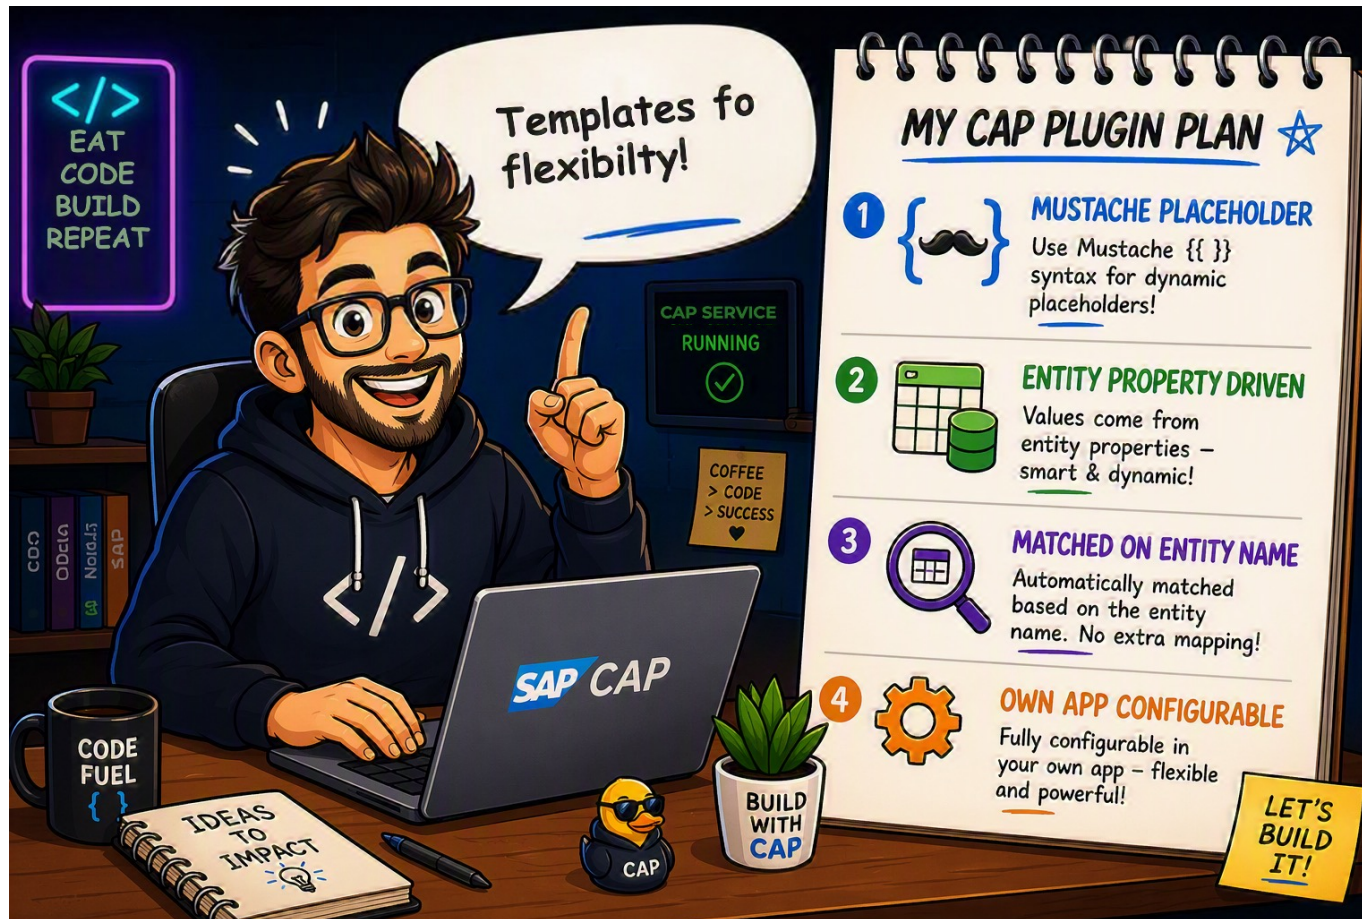

Backstory

- Customer app needs to be able to send emails
- Reuse the solution
- Plugins are fun

Concept

Concept

Concept

```
@email: {  
  enabled: true,  
  template: 'order-confirmation',  
  trigger: ['INSERT', 'UPDATE'],  
  condition: 'status = ''APPROVED''',  
  recipientField: 'contactEmail',  
  subject: 'Order {{orderNumber}} confirmed',  
  rollback: true  
}  
  
entity Orders as projection on my.Orders;
```

Concept

```
@email: {  
  enabled: true,  
  template: 'order-confirmation',  
  trigger: ['INSERT', 'UPDATE'],  
  condition: 'status = ''APPROVED''',  
  recipientField: 'contactEmail',  
  subject: 'Order {{orderNumber}} confirmed',  
  rollback: true  
}  
  
entity Orders as projection on my.Orders;
```
